USING DAX COMMANDS IN POWER BI

Measure 1 -Total Sales

```
Total Sales =
SUM(AFSHAAN_CLEAN_SALES[REVENUE])
```

Measure 2 - Average Sales

```
Average Sales =
AVERAGE(AFSHAAN_CLEAN_SALES[REVENUE])
```

Measure 3 - Total Transactions

```
Total Transactions =
COUNTROWS(AFSHAAN_CLEAN_SALES)
```

Measure 4 - Total Customers

```
Total Customers =
DISTINCTCOUNT(AFSHAAN_CLEAN_SALES[CUSTOMER_ID])
```

Measure 5 - Average Order Value

```
Average Order Value =
DIVIDE([Total Sales], [Total Transactions], 0)
```

Measure 6 - Sales Status

```
Sales Status =
IF(
    [Total Sales] >= 100000,
    "Target Achieved",
    "Target Not Achieved"
)
```

Measure 7 - Electronics Sales

```
Electronics Sales =
CALCULATE(
    [Total Sales],
```

```
    AFSHAAN_CLEAN_PRODUCTS[CATEGORY] = "Electronics"
)
```

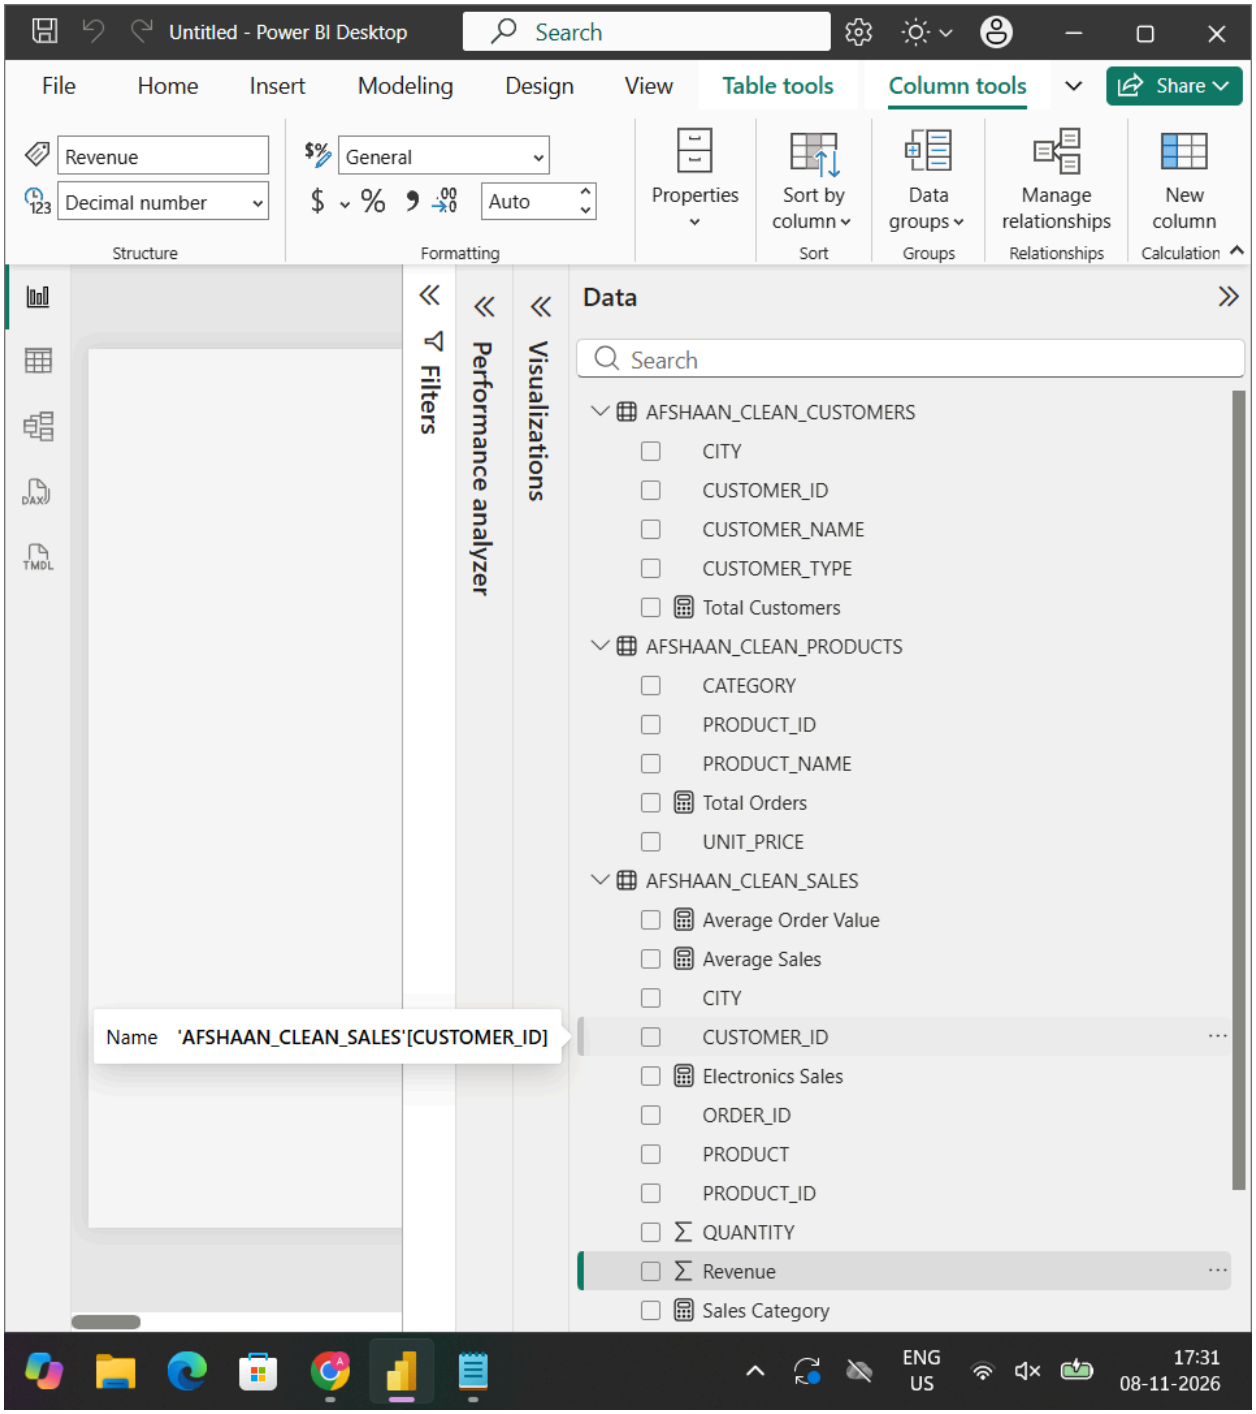

Measure 8 - Total Revenue

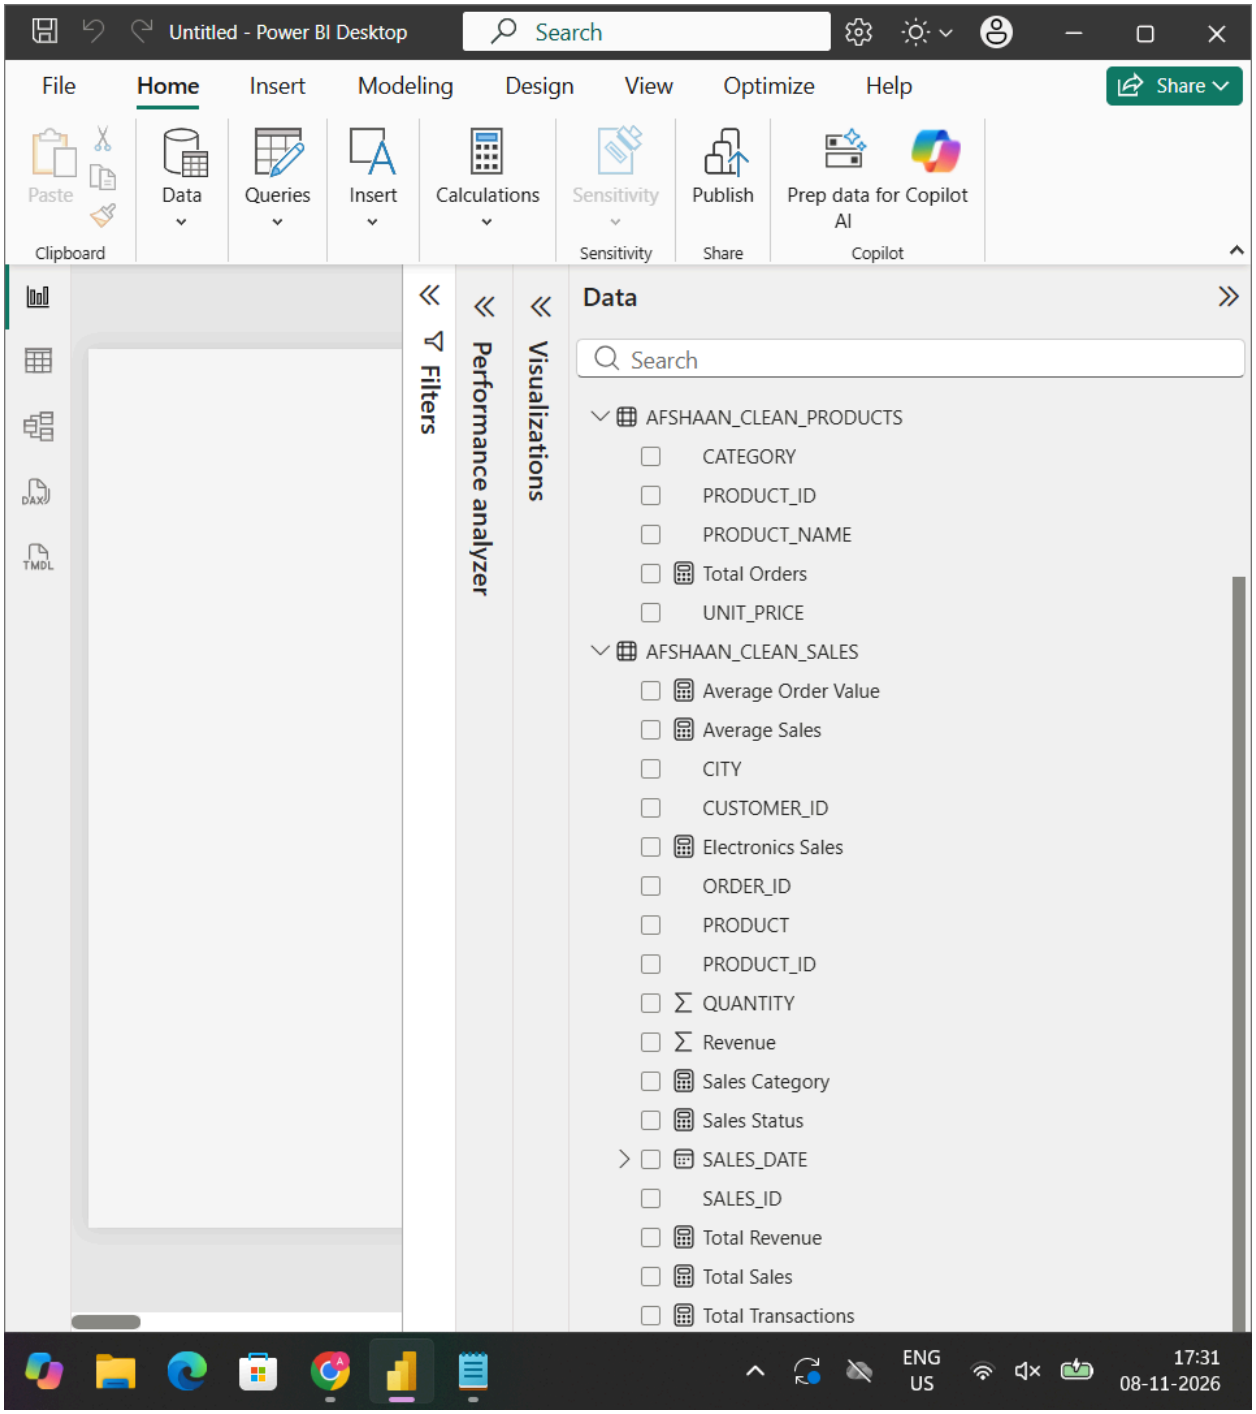

```
Total Revenue =
SUMX(
    AFSHAAN_CLEAN_SALES,
    AFSHAAN_CLEAN_SALES[REVENUE]
)
```

Measure 9 - Sales Category

```
Sales Category =
SWITCH(
    TRUE(),
    [Total Sales] >= 30000, "High",
    [Total Sales] >= 15000, "Medium",
    "Low"
)
```

Visualizations

Created the following visualizations using the DAX measures and existing table columns.

KPI Cards

Created four Card visuals:

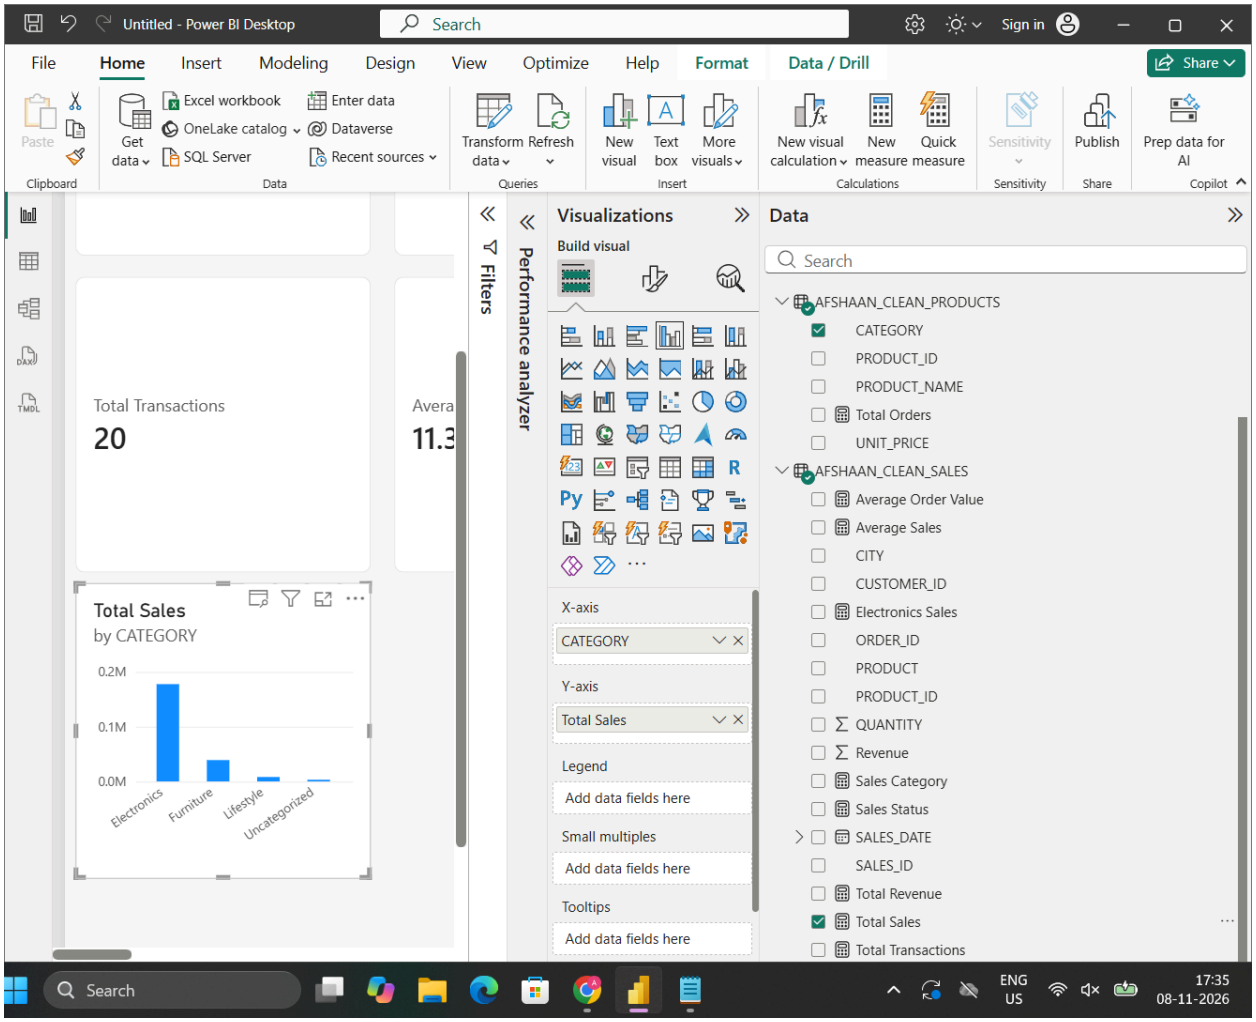

1. Total Sales
2. Total Customers
3. Total Transactions
4. Average Order Value

Sales by Category

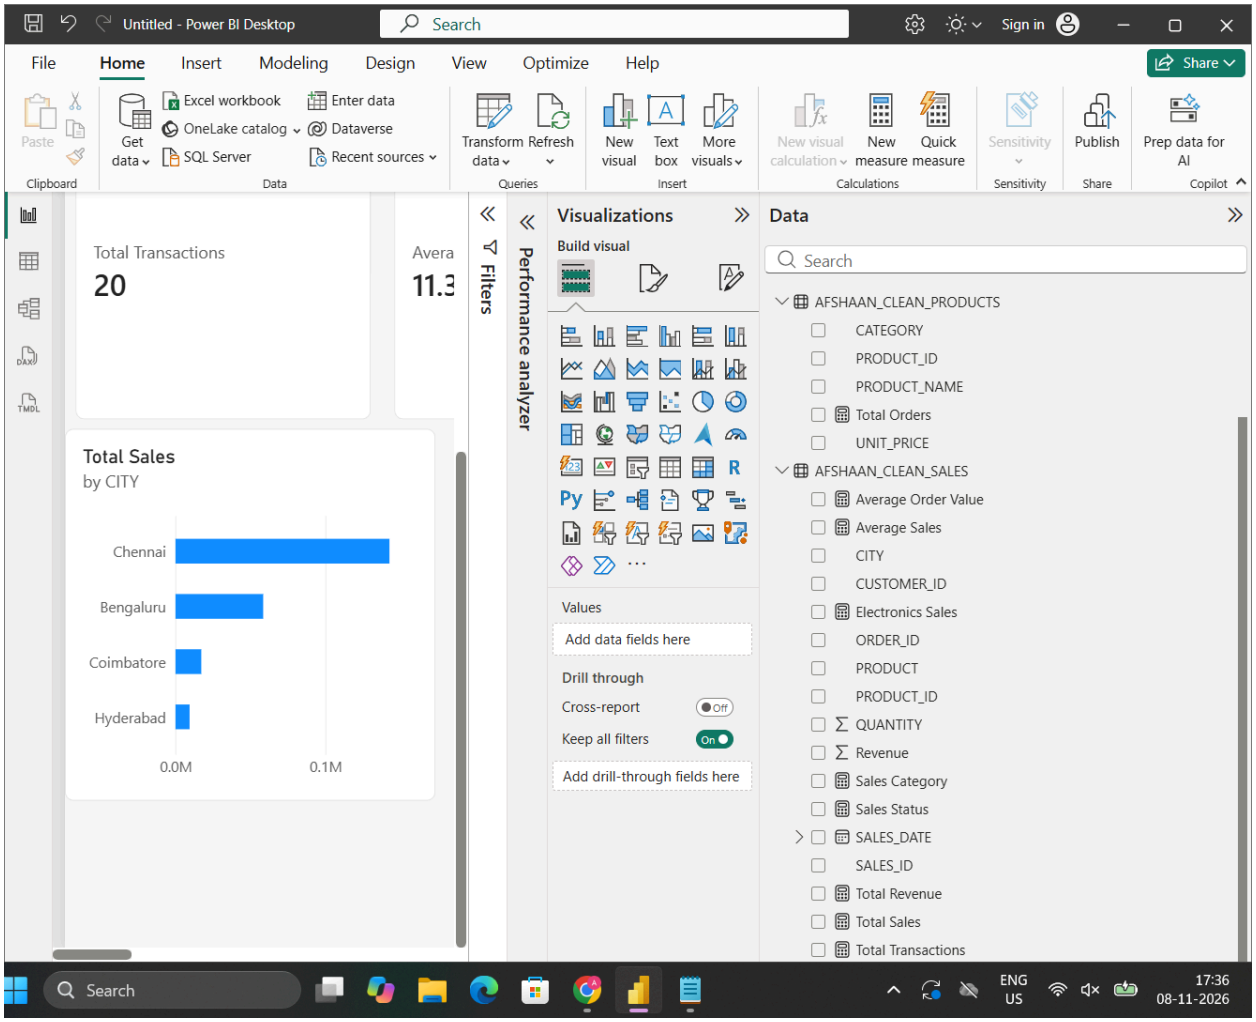

- Visual: Clustered Column Chart
- X-Axis: CATEGORY
- Y-Axis: Total Sales

Sales by Category

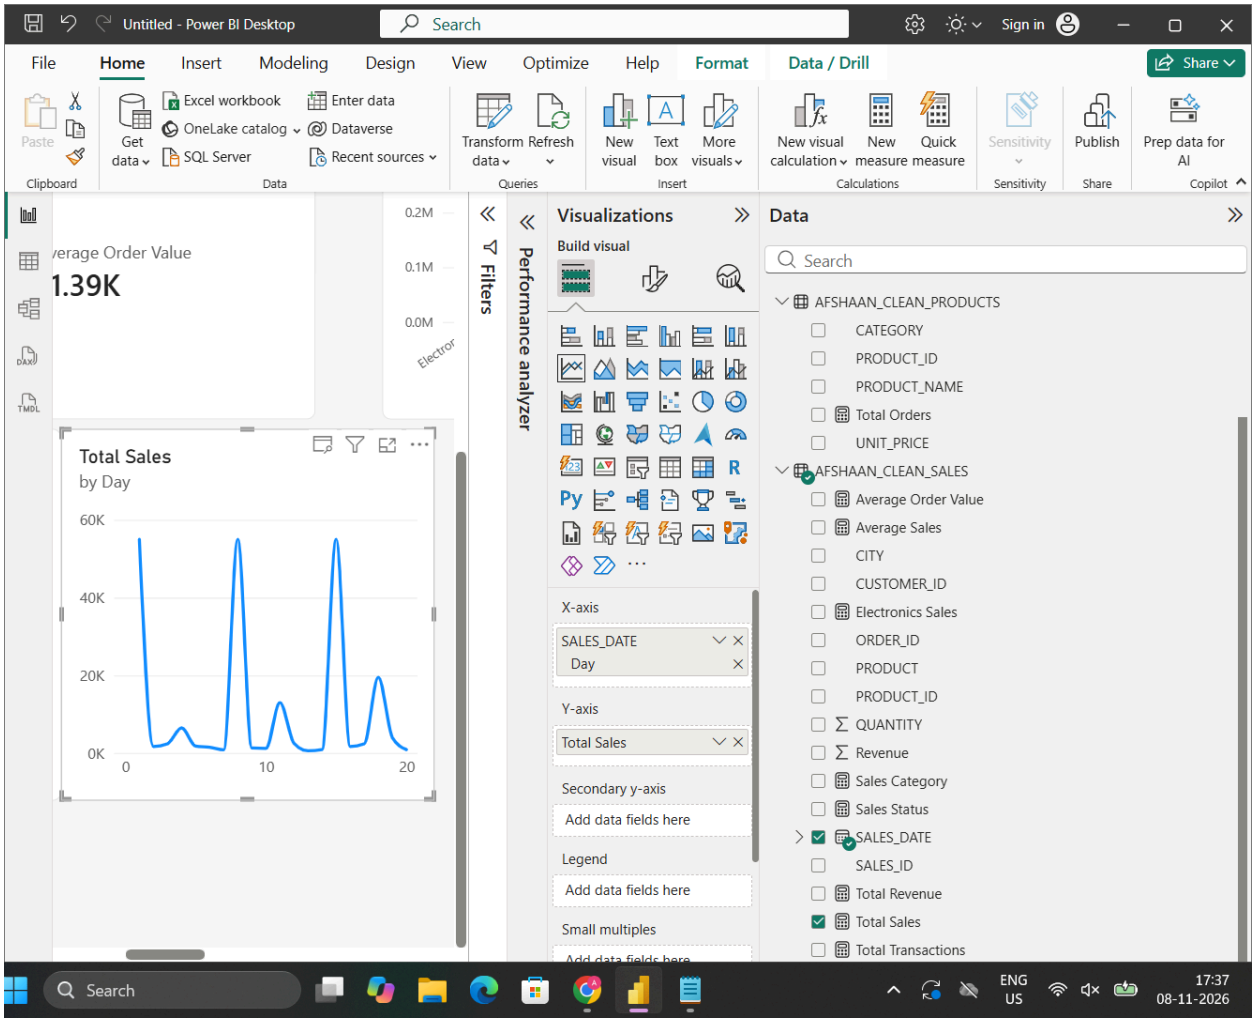

Sales by City

- Visual: Bar Chart
- Y-Axis: CITY
- X-Axis: Total Sales

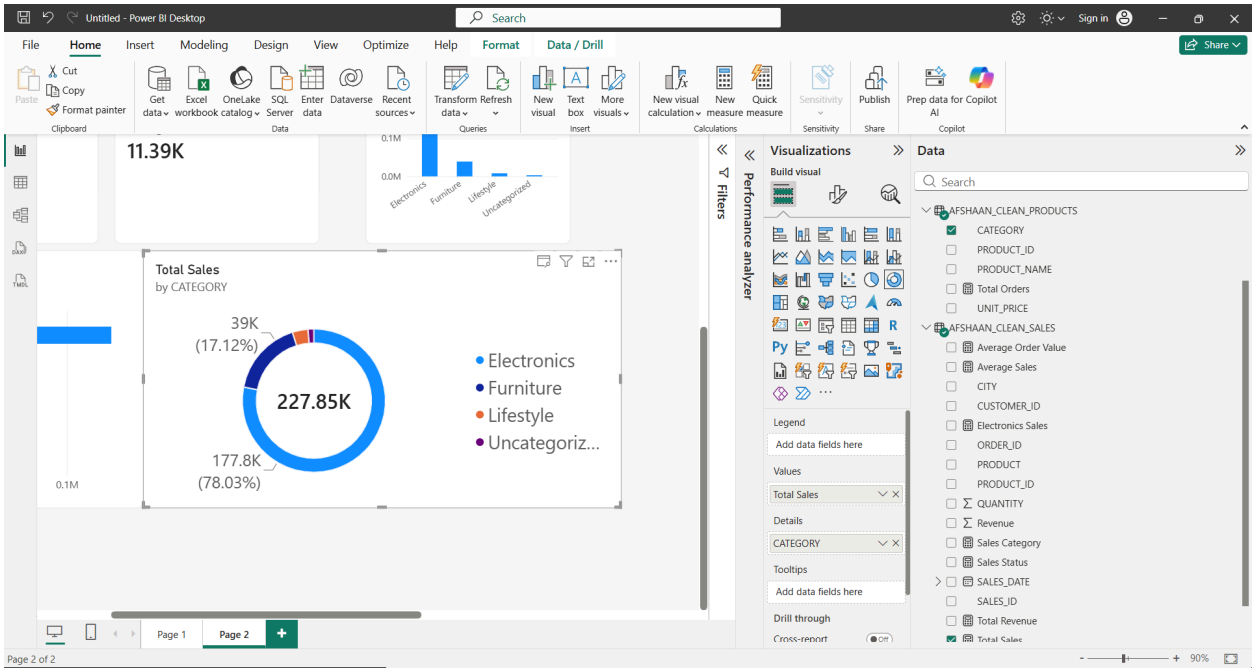

Sales Trend

- Visual: Line Chart
- X-Axis: SALES_DATE
- Y-Axis: Total Sales

Sales Distribution

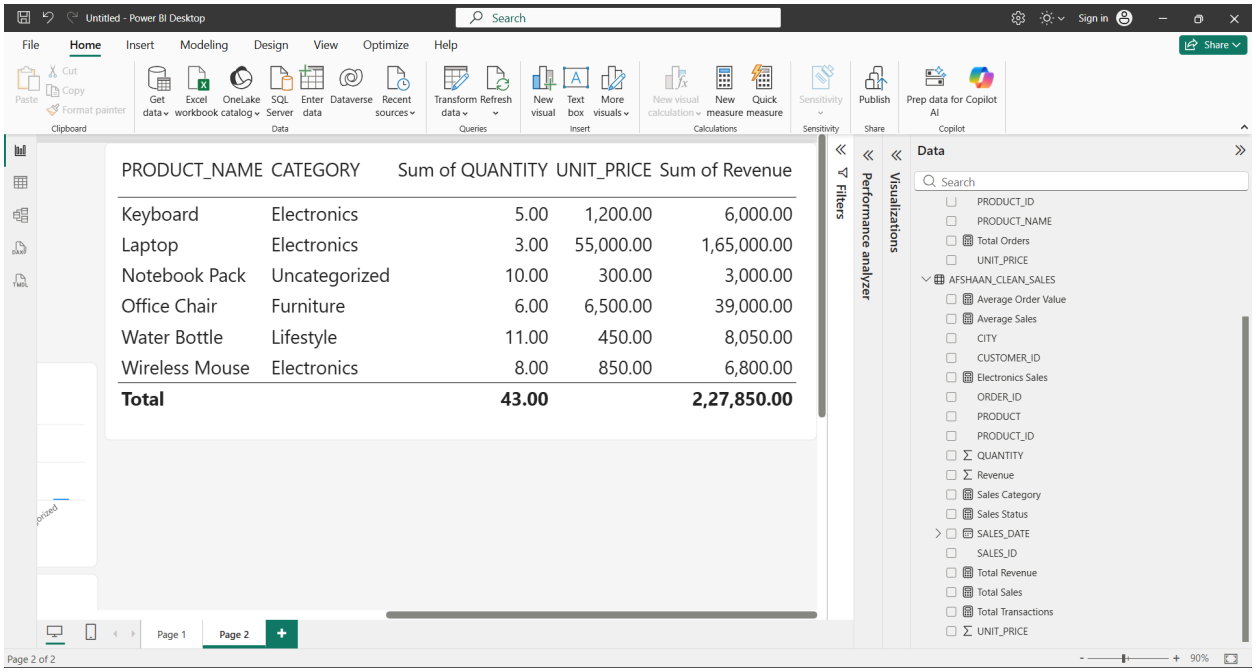

- Visual: Donut Chart
- Legend: CATEGORY
- Values: Total Sales

Product Sales Table

Created a Table visual using the following fields:

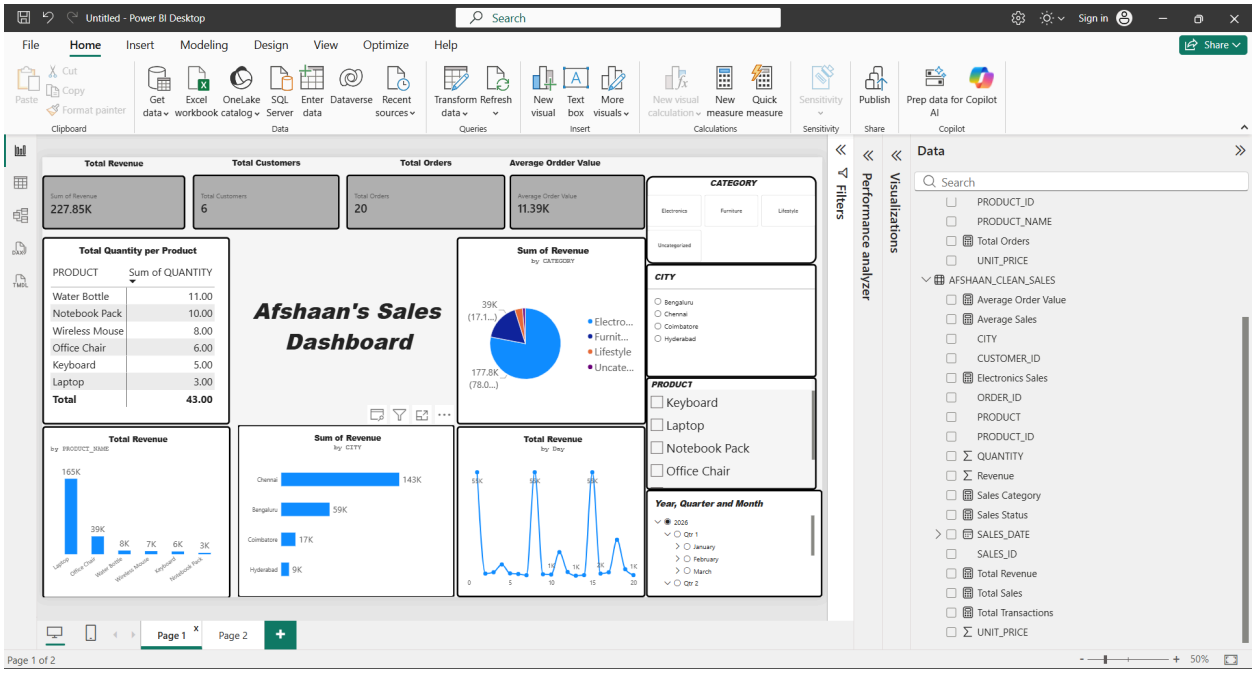

- PRODUCT
- CATEGORY
- QUANTITY
- UNIT_PRICE
- REVENUE
- Sales Category

PRODUCT_NAME	CATEGORY	Sum of QUANTITY	UNIT_PRICE	Sum of Revenue
Keyboard	Electronics	5.00	1,200.00	6,000.00
Laptop	Electronics	3.00	55,000.00	1,65,000.00
Notebook Pack	Uncategorized	10.00	300.00	3,000.00
Office Chair	Furniture	6.00	6,500.00	39,000.00
Water Bottle	Lifestyle	11.00	450.00	8,050.00
Wireless Mouse	Electronics	8.00	850.00	6,800.00
Total		**43.00**		**2,27,850.00**

In the previous dashboard also i created measures using dax and used those to create charts attaching it too
I had slicers too

Same data previous task's dashboard(Attaching as i have used slicers ,dax in that too)

The current dashboard
